Sir:

**RESPONSE**

This is responsive to the Restriction Requirement mailed June 8, 2006 (Paper No. 05302006), the date of response to which is July 10, 2006 (July 8, 2006 falling on a Saturday).

Applicant elects the invention of Group I, i.e., claims 1-5, with traverse. Group I claims 1-5 are directed to a method for forming a bracket.

Applicant notes that because the present application is a U.S. national phase entry of the International PCT application, restriction practice under §121 is improper. Restriction practice only under the PCT rules is permitted and then it is proper only if the claims do not relate to a "single general inventive concept." Applicant traverses the restriction requirement because in each of Applicant's claims 1-9, a single inventive concept is expressed.

The Examiner will note that in Group I, claim 1, step (i), there is a recitation of "the blank having at least one fold line defining first and second regions of the blank, the fold line extending only partially across the blank." This identical language is present in Group II, independent claim 6 directed to the blank, Group III, independent claim 8 directed to a bracket made from the blank and Group IV, independent claim 9 directed to a tool for forming a bracket (note in claim 9, instead of a "fold line" the term "hinge" is utilized, but the structure is the same).

Thus, in each of the Groups I-IV, Applicant recites a single general inventive concept of a blank having a fold line (or hinge line) defining first and second regions with the fold line (or hinge line) extending only partially across the blank.

In view of the fact that Applicant's claims are directed to "a single general inventive concept," there is believed no basis for restriction practice under §372 (and any rejection under §121 is improper). Accordingly, while Applicant elects Group I, the election is with traverse and reconsideration of the restriction requirement is respectfully requested.

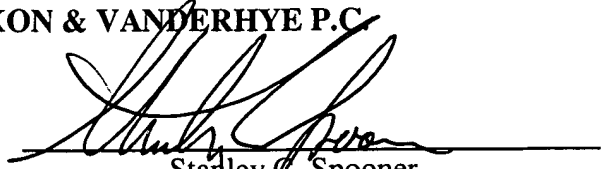

Having responded to all objections and rejections set forth in the outstanding Official Action, it is submitted that claims 1-9 are in condition for allowance and notice to that effect is respectfully solicited. In the event the Examiner is of the opinion that a brief telephone or personal interview will facilitate allowance of one or more of the above claims, she is respectfully requested to contact applicant's undersigned representative.
